

## OTCEED - BOONS Partnership

There are many ICOs that strive to be disruptors, but only few that have long-term vision. That is why at OTCEED we take extra measures to ensure idea integrity. We are pleased to announce our latest partnership with BOONS ICO (<https://boonscoin.com/>). With the established e-retail giants having almost total control on the channels that connect sellers and buyers, it is long overdue to have a blockchain solution that cuts out the middleman. This means lower prices for consumers as well as lower associated costs for sellers and manufacturers. Everyone's a winner in this new generation of e-retail and hence we are excited to see this latest disruption of the market undertaken by one of our own. At OTCEED, we show our confidence in our clients by investing in their ICOs and STOs to help innovators such as BOONS realize their goals. We wish our partner the best of luck and look forward to integrating them into our soon-to-be-released trading platform.

## SYSTEM OF OPERATION

### BEST OF ONLINE SALES (BOONS) SYSTEM OF OPERATION

OTCEED strives to be the ultimate broker for all of your OTC trading exchange needs. We provide unparalleled services that are a product of individually-tailored packages. Currently facilitating an average of USD\$ 3 Billion in monthly transaction volume, OTCEED boasts its ability to meet all of your ICO and STO needs. We are carefully vetting each of the numerous applications that we receive daily to ensure that our exchange remains exclusively comprised of ICO/STOs that are poised for exemplary growth.

For further information on our our tailored services, please go to [otceed.com](http://otceed.com) and explore the many ways we can help your ideas reach fruition.
